insulin aspart injection 100

Assistance and Support for NovoLog ... - Fiasp® (insulin aspart injection) 100 U/mL, is a fast-acting insulin indicated to improve glycemic control in adults with type 1 or type 2 diabetes. Read important safety & prescribing info on this page. Fiasp® (insulin aspart injection) 100 U/mL - fiaspro.com - The insulin aspart protamine portion is a crystalline form of insulin aspart, which delays the action of the insulin, giving it a prolonged absorption profile after injection. The combination of the fast-acting form and the long-acting form allows the patient to receive fewer injections over the course of the day. Insulin aspart - Wikipedia -
